

Create a database in cloudant DB

Team id	PNT2022TMID46746
Project Name	Smart waste management system for metropolitan cities

Step 1: login into IBM CLOUD account

Step2: On the top left corner click on RESOURCE LIST

Step 3: Search for Database option then click on drop down arrow

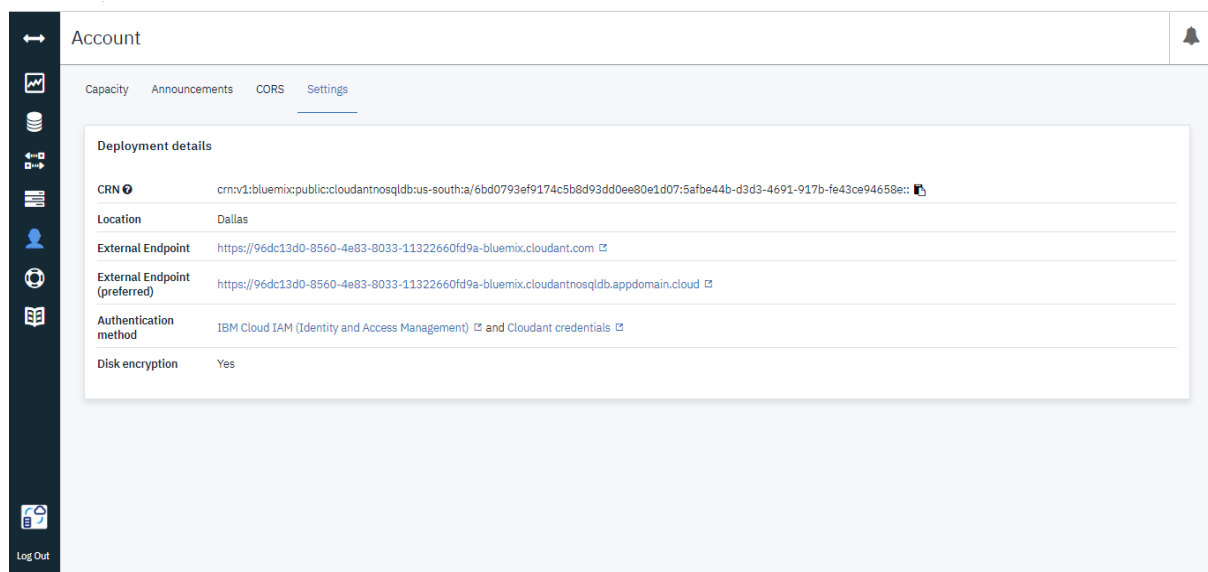

Step 4: Then click on cloudant account available

Step 5: Now, cloudant window appears then click on launch dashboard on right corner

Step 6: click on create database on right corner then provide the name for database and check the -partitioned - recommended for most workloads>option then click on create

Step 7: Finally, cloudant DB was successfully created.

Screenshots of cloudant account:

A screenshot of the MongoDB Compass web interface. The left sidebar contains navigation icons for home, documents, queries, permissions, changes, and design documents. The main area displays a large cloud icon with the text 'No Documents Found' below it. The top bar shows the database name 'nive', a 'Document ID' dropdown, and buttons for 'Options', 'JSON', and a notification bell. The bottom status bar indicates 'Showing 0 documents' and 'Documents per page: 20'.
