Date	28 OCT 2022
Team id	PNT2022TMID46746
Project Name	Project-smart waste management system for metropolitan cities
Marks	2Marks

Write code and connections in wokwi for the ultrasonic sensor. Whenever the distance is less than 100 cms send an "alert" to the IBM cloud and display in the device recent events. Upload document with wokwi share link and images of IBM cloud.
