

CREATION OF IBM CLOUD SERVICES

Team ID	PNT2022TMID46746
Project Name	PROJECT -Smart waste management system for metropolitan cities

SCREENSHOT OF CLOUD ACCOUNT CREATION:

The screenshot displays the IBM Cloud console interface. At the top, the header includes the IBM Cloud logo, a search bar, and navigation links for Catalog, Manage, and the user's account (NIVETHITHA S's Account). Below the header, the main content area shows the 'Internet of Things Platform-sl' service, which is active. A sidebar on the left contains navigation options: Manage, Plan, and Connections. The main content area features a large illustration of a device connected to a network, with the text 'Let's get started with IBM Watson IoT Platform'. Below this, there is a section titled 'Ready for the next level?' and 'IBM Watson IoT Platform Journey', which outlines three service plans: Lite, Non-Production, and Production. Each plan includes a description and a list of features or limitations. At the bottom right, there is a button to 'Continue your journey on IBM Marketplace'.

Ready for the next level?

IBM Watson IoT Platform Journey

Lite

The Lite service plan provides a lightweight development environment to get you started with the connectivity capabilities of Watson IoT Platform.

- Free
- 200 MB data-transfer limit
- 600 application bindings limit
- 600 registered devices limit

Non-Production

The Non-Production service plan is a full-featured, fully-integrated offering that enables you to explore Watson IoT Platform to see how the service can fit into your IoT environment.

- Starts at \$500 per month
- Capacity limit based on device type
- Optional Analytics Service and Blockchain Service add-ons

Production

The Production service is a fully managed SaaS offering that enables you to manage and analyze enterprise IoT data.

- Includes IBM Service & Support
- Pricing based on number of devices per device type
- Optional Analytics Service and Blockchain Service add-ons
